

## VIOLATIONS

Through inadvertence, the licensee only filed a single biennial ownership report during the current license term – on Dec. 1, 2021 (FCC File No. 0000175696).

As a result of the changeover in FCC filing systems, from CDBS to LMS, it is unable to late-file missing reports, as LMS automatically defaults the snapshot dates for biennial ownership reports to Oct. 1, 2021, without possibility of editing.

The licensee recently retained communications law counsel to assist in establishing a more effective compliance program going forward. These efforts are well underway.
