December 17, 2021

Dear Mr. Arias:

The Commission is in receipt of a proposal to install a low-power television station as follows:

- |  |                                  |
|--|----------------------------------|
| 1. Applicant:                          | MYL, LLC                         |
| 2. Call Sign:                          | K06QY-D                          |
| 3. Channel Number:                     | 6                                |
| 4. Principal Community to be Served:   | Laredo, TX                       |
| 5. Proposed Transmitter Location:      | 27-31-28.90 NL<br>99-31-20.80 WL |
| 6. Effective Radiated Power:           | 0.30 kW                          |
| Emission Mask:                         | Stringent                        |
| 7. Transmitting Antenna:               | NON-DIRECTIONAL                  |
| Antenna Manufacturer and Model:        | SCA/TVO-4                        |
| Orientation:                           | None                             |
| Polarization:                          | Horizontal                       |
| Electrical beam tilt:                  | None                             |
| Mechanical tilt:                       | None                             |
| Radiation Center Above Ground:         | 122.00 meters                    |
| Radiation Center Above Mean Sea Level: | 243.00 meters                    |
| 8. Average HAAT:                       | 96.00 meters                     |
| 9. Distance to the border:             | 0.20 km                          |

In view of the proximity of this proposed site to the Mexican-U.S.A. border, your comments are requested.

Sincerely,

for

Olga Madruga-Forti
