

DISPLACEMENT APPLICATION WAIVER REQUEST FOR K220GH

Educational Communications of Colorado Springs, Inc., hereby respectfully requests as part of a displacement application a waiver of the Commission rules to permit K220GH to relocate its frequency from channel 220 to channel 287, and maintain the currently authorized maximum ERP of 75 watts. This request is filed in response to an FM station application listed below recently filed by Cedar Cove Broadcasting, Inc. That application is not part of an MX group, and it will be built on channel 219, the first adjacent channel to K220GH. Please see additional supporting discussion and exhibits in the Technical Certification attachment.
