

### **Request for Special Temporary Authority to Remain Silent**

Northern Broadcasting Company, Inc. (“Northern Broadcasting”), licensee of Class A television station WNCE-CD, Glens Falls, New York (Facility ID No. 450) (“WNCE-CD”), hereby requests Special Temporary Authority (“STA”) for WNCE-CD to remain silent. WNCE-CD went silent on December 13, 2021 due to a transmitter malfunction. WNCE-CD’s transmitter will require replacement before the station may resume on-air operations. Northern Broadcasting is in the process of securing a replacement transmitter for WNCE-CD, but installation of the replacement translator may take several weeks due to the onset of winter in Upstate New York. Accordingly, Northern Broadcasting respectfully requests STA for WNCE-CD to remain silent until the station’s transmitter is replaced – thereby allowing the station to resume on-air operations.
