

## ENMU Purpose of Amendment

January 17, 2022

This amendment is intended to clear the MX condition with the application filed by New Hope Baptist Church (File number 0000167512), MX Group 149. This application will change frequency, and slightly modify the location to coincide with the antenna for ENMU's K216BJ which will be displaced by this application.

The coordinates of the antenna, AGL height, AMSL information, and coverage information has been modified.
