

Nexstar Media Inc.
KXMB-TV, Bismarck, ND (Fac ID 55686)

**Notification of Continued Operations at Reduced Power and Request for Special
Temporary Authority**

Nexstar Media Inc., licensee of KXMB-TV, Bismarck, North Dakota (Fac ID 55686), and as noted in its notification of operations at reduced power, has been operating KXMB-TV at approximately 45% of its TPO since December 13, 2021, due to the antenna not matching with the receiver, resulting in a high reflected power issue. The issue continues to be diagnosed, and delivery of the replacement equipment is delayed. Because of this delay, this STA request is being submitted to allow the station to operate at reduced power for longer than 30 days until the repairs can be completed. The station has worked with all cable and MVPD providers to ensure no loss in carriage, and therefore grant of this STA would serve the public interest by allowing the station to remain on air even at the reduced power.
