

Martin Muniz
WMVB Public File Exhibit

WMVB is a Class D AM station licensed to Millville, NJ. Since becoming the Licensee of WMVB in 2017, the station has received only two political advertising requests and orders, both of which were uploaded late to the WMVB Online Public File. WMVB has instituted procedures to assure that requests and orders for and political advertising are timely uploaded in the future.

With only two instances, WMVB requests that this be treated as a *de minimis* violation and requests renewal.

Although Martin Muniz is new to broadcasting, WMVB has broadcast programming responsive to community needs and issues since acquiring WMVB. Mr. Muniz recently became aware of the Issues-Programs public file uploading requirement. Upon learning of this requirement, Issues Programs statements have been uploaded to the WMVB Online Public File and an internal program has been implemented to assure timely future compliance.
