

Engineering Special Temporary Authority Request

HC2 Station Group, Inc. ("Licensee") respectfully requests an Engineering Special Temporary Authority (STA) pursuant to the technical specifications listed in the application while it repairs its broadcast facility for this Low Power television station ("Station").

The Station's transmitter is unable to make full power, therefore, the ERP has been reduced to 11.175kW. The Licensee is working diligently with the transmitter manufacturer to order replacement pallets. Once received and installed, the station will be able to resume licensed operations.

Grant of Licensee's Engineering STA promotes the public interest as it will allow WUET-LD to continue to provide free over-the-air programming to the community and the surrounding area.
