

## EXPLANATION OF APPARENT DISCREPANCY IN ONLINE PUBLIC INSPECTION FILE ("OPIF")

Examination of the WXRL OPIF (More Public Files/Issues and Programs Lists) indicates that four issues/programs lists were untimely uploaded on February 15, 2019, as follows:

### More Public Files

 <u>July 1-Sept. 31, 2018</u>	260.51 KB 02/15/2019 3:14 PM
 <u>Oct-Dec 2018 - Gov. shutdown</u>	302.28 KB 02/15/2019 3:14 PM
 <u>Apr.1-June 30, 2018</u>	257.44 KB 02/15/2019 3:13 PM
 <u>Jan.1-March 31, 2018</u>	254.84 KB 02/15/2019 3:13 PM

However, further review reveals that the issues/programs lists were timely uploaded to the OPIF, but to the incorrect folder. They were erroneously uploaded to the "AM Station Information" page, as follows:

### AM Station Information

Name	Size	Date Uploaded
 <u>Oct-Dec 2018 - Gov. shutdown</u>	302.28 KB	01/28/2019 9:39 AM
 <u>July 1-Sept. 31, 2018</u>	260.51 KB	10/08/2018 2:39 PM
 <u>Apr.1-June 30, 2018</u>	257.44 KB	07/02/2018 5:24 PM
 <u>Jan.1-March 31, 2018</u>	254.84 KB	04/03/2018 2:57 PM

When the error was discovered, the licensee began uploading the "Issues and Programs Lists" folder under the "More Public Files" Tab.
