Re: Digital Flash Cut Construction Permit Applications

Dear Licensees:

According to Commission records the stations listed below have already completed their conversion to digital operations using the digital companion channel facilities referenced below. Analog stations were provided the option to complete their transition to digital by either (1) “flash cutting” their existing analog facility to digital (at which time their analog license will be replaced by a new digital license and the digital companion channel permit or license canceled) or (2) surrendering their analog channel and continuing to operate their digital companion channel. For stations choosing the second option, analog channels were required to be surrendered no later than July 13, 2021. No station may possess both a digital flash cut and digital companion channel construction permit.<sup>1</sup>

Accordingly, the following digital flash cut applications have been **DISMISSED** and the corresponding analog facilities have been **CANCELED**. The stations may continue to operate the digital facilities listed below.

Call Sign	Analog Facility ID	Digital Companion Channel/Digital Facility ID	Community	State	File Numbers
K36DC	19847	185493	BEOVAWE, ETC.	NV	0000152676
