

## Amendment - KTVQ

This amendment to the instant application is being filed to reflect the new broadcast television Table of Allotments that was updated effective December 22, 2021. Specifically, the requested channel change for Billings, Montana is as follows:

<u>Present</u>	<u>Proposed</u>
10, 11, *16, 18	11, *16, 18, 20

In addition, while this requested channel change is one of six requests being filed contemporaneously by Scripps Broadcasting Holdings LLC (“Scripps”), the loss areas created by this channel change are not affected by the other channel change requests. Rather, the loss areas here are partially covered by two other Scripps low power television stations, K15LB-D (Red Lodge, MT) and K28ON-D (Castle Rock, Etc., MT), that are not changing channels.
