

KOTV-DT

Online Public Inspection File

Griffin Communications, L.L.C., the licensee of KOTV-DT, Tulsa, Oklahoma (“KOTV”), did not timely upload all documents to the KOTV online public inspection file (“OPIF”). Specifically, while KOTV uploaded information regarding political advertising to its online public inspection file, some materials were not uploaded timely, given the significant and unanticipated increase in political recordkeeping requirements, and the challenges of uploading materials to the online public file in a work-from-home environment during the pandemic. Promptly upon discovery, the licensee took corrective action to put in place additional procedures to ensure that all political advertising information is timely uploaded. In addition, the 2017-2018 EEO public file report was uploaded 4 days late. The licensee took corrective action and, in order to ensure future compliance, station personnel received training regarding the FCC’s OPIF maintenance requirements.
