

WNYH(AM)

Online Public Inspection File

In the course of preparing this renewal application with new communications counsel, it was determined that the licensee inadvertently omitted filing a biennial ownership report in 2015. The biennial ownership report for 2017 was not filed until June 3, 2019. The biennial ownership report for 2021 was not filed until January 18, 2022 following the retention of new communications counsel. There were no changes in the information sought by that report from any previous ownership reports on file for the current licensee. Nor have there been any changes in the ownership and control of the licensee from most recent report to the present date.

Quarterly issues/programs lists for each quarter during the license period prior to March 2018 were added to the paper public file on a timely basis. However, quarterly issues/programs lists for the period beginning in the First Quarter 2018 to the present were not uploaded to the WNYH online public file in a timely manner. Copies of those reports were added to the online public file on January 20-21, 2022. Licensee has taken corrective actions to help ensure future compliance with these requirements.

A time brokerage agreement dated October 28, 2021 inadvertently was not uploaded to the online public file until January 28, 2022.
