Due to a change in the station's programming schedule, ION Media License Company, LLC ("ION") aired twelve weeks of Core programming during the first quarter 2021. Specifically, between January 1 and February 28 the station was affiliated with the ION Plus network. On March 1, the station began airing programming from the Grit network. The Grit network's Core programming did not begin airing on the station until March 6 and then aired weekly throughout the duration of the first quarter. As a result of the change in the station's affiliation, the station aired Core programming each calendar week, but did not air thirteen weeks of Core programming in the first quarter.

In addition to the station's efforts to broadcast Core programming, the station aired a substantial number of PSAs and other programming that served the interests of children in its community:

First Book (ION Television) - Today, there are millions of American children without access to books of their own. So, when schools close, there are real consequences for kids in high-poverty areas. Without books or the ability to participate in online learning, they miss out on valuable resources to learn and excel. ION partnered with First Book to promote the efforts of sending new books to support children in homeless shelters, meal sites, and neighborhoods across the country.

Foster Care (Foster More) - Shines a light on the amazing potential of kids and families in the foster care system, and empowers all foster kids to reach their dreams through education. Foster More encourages all of us to play a part in ensuring that foster youth receive the support, nurturing, and guidance they need to succeed in life.

Worldwide Headquarters of Play (The Toy Foundation) – A diverse cast of families playing inside of homemade forts together as they share how play benefits both kids and adults. Play has always been essential to a child's healthy development, but it is even more critical to our well-being now. As families continue to adjust to the many challenges caused by the COVID-19 pandemic, play can provide much-needed stress relief to both kids and adults, help ease anxiety, and keep the little ones entertained and learning at the same time.

First Responders (First Responders Children's Foundation) - Children know how crucial it is to look for people who can help them, and First Responders Children's Foundation knows how crucial it is to look out for those helpers, so they can keep coming to our rescue, day, and night. Firefighters, police, and medical personnel spring to life from the sweet drawings of children all over the USA who join together to cheer on our brave and courageous heroes. We still live in a world where kids have heroes they can look up to - America's first responders!

ION asserts that its collective actions have met its obligation to serve the educational and informational needs of children.
