

Online Public Inspection File WSLG (Facility ID 175081)

All of the documentation required by 73.3526 and 73.3527 has been uploaded to the station's public inspection file with the following variances:

1. The Q1 2021 Issues and Programs report was uploaded on April 15, 2021. (Due April 10, 2021)

WSLG is part the same market and therefore of the same employment unit and operates as a "satellite" station of WSLU, Canton NY (Facility ID 66433). WSLG itself has no full-time employees.

2. The WSLU 2019 EEO Report was uploaded on April 20, 2021. (Due February 1, 2020)
3. The WSLU 2020 EEO report was uploaded on April 20, 2021. (Due February 1, 2021)

Applicant states that these were the result of administrative oversight, and in the case of items 1 and 3, staffing availability and coverage assignments during the pandemic.

In order to prevent reoccurrence of these variances, The St. Lawrence University d/b/a North Country Public Radio has undertaken a project by which a commercially available cloud-based calendar/task system will be established to maintain due dates of such filings and notify multiple responsible staff members of the imminent requirement. This system will not be dependent on the participation, personal calendar, or continued employ of a single staff member.
