

**Children’s Programming Exhibit  
KNEP(TV), Scottsbluff, Nebraska (FID 17683)**

Gray Television Licensee, LLC (Gray), is the licensee of KNEP(TV), Scottsbluff, Nebraska (FID 17683). KNEP is an NBC affiliate; it acts as a partial satellite to sister station KNOP-TV in the adjacent North Platte DMA. On the weekends, KNEP simulcasts the programming of KNOP-TV, including the NBC-supplied children’s programming block.

On various weekends in June, July, August and September 2021, regularly scheduled children’s programming was preempted because of NBC sports programming, including several weekends of Olympic programming. Because of severely limited inventory during this time, KNOP-TV (parent station) scheduled certain make-goods to air between 6:00 - 7:00am Central Standard Time (CST). KNEP (satellite station) is on Mountain Standard Time (MST). Because of the time difference between the parent and satellite station, these make-goods aired between 5:00 - 6:00 am, local time on KNEP. Because these make-goods aired outside of Core programming hours, KNEP has not included these episodes in its Core programming totals.

In addition to regularly scheduled weekly programming detailed in this report, KNEP also aired short-form programming in the form of educational and informational Public Service Announcements (PSA) that were directed toward children younger than 16. Based on the format of PSAs, they do not contain the E/I bug.

The Program Form in the Digital Core Programming Summary will not accept a “length of program” answer that is less than 1 minute. For each PSA program form, the length of program was answered “1 minute.” The actual length of each reported PSA is listed below. The quarterly program hours reported for each PSA was correctly calculated using the actual length of the PSA.

<b>PSA Title</b>	<b>Program Length</b>
Be Kind to Farm Animals	:30
Beyond School Bells	:15
Fur the Love of Paws	:30
Autism Awareness	:60
Bullying – I am a Witness	:30
Tolerance – Dear Parents	:60
