

WPIE ONLINE PUBLIC INSPECTION FILES

While quarterly issues/programs lists are uploaded and up to date, WPIE would like to exhibit that not all quarterly issues/program lists were uploaded in a timely fashion. This includes WPIE 2019 Quarters 1, 2 and 3, as the newly-hired Operations Manager had printed them for in-house review and was unaware of the FCC's transition to a web-based hosting of quarterly issues/program lists. During WPIE 2020 Quarters 1 and 2, the COVID-19 pandemic made a difficult impact on our resources which resulted in later uploads. WPIE 2021 Quarter 2 was a mistake of the Operations Manager who did not properly submit. WPIE will be taking strong steps forward to ensure these are handled in a much more proper and timely manner.
