

WRCN-FM Online Public Inspection File

JVC Media, LLC (Licensee) is the licensee of WRCN-FM, Riverhead, New York (Facility ID No. 18239) (Station). During the current license term, Licensees cannot certify that the Station fully complied with certain online public inspection file (OPIF) requirements as provided in Section 73.3526 of the Commission's rules.¹

Section 73.3613 Document List. The Station inadvertently failed to upload the list of documents required by Section 73.36.13 of the Commission's rules during the OPIF transition. Upon discovery of this oversight, the Station promptly uploaded the required document list.

Issues/Programs Lists. The Station uploaded a number of its Issues/Programs lists late. All of the relevant lists have not been uploaded to the OPIF. As the Commission knows, the transition to the OPIF required significant changes for a number of licensees as procedures for maintaining stations' public inspection files were changed and station staff were trained in how to prepare and maintain digital documents for the OPIF. Licensee regrets that it did not timely upload its Issues/Programs lists to the Station's OPIF. Licensee also appreciates its obligation to fully comply with the Commission's rules. To that end, Licensee has discussed the OPIF requirements with its communications counsel and has adopted updated policies and procedures to ensure that the Station's Issues/Programs Lists are timely uploaded to the OPIF going forward.

Political Files. The Station uploaded two political files late. Licensee's stations do not take a significant amount of political advertising. Nonetheless, Licensee understands that the Commission has recently clarified that stations must upload political file documents within one business day. The Station inadvertently uploaded the relevant political file documents at the end of the advertising run, approximately a week after the run started. Licensee appreciates the emphasis that the Commission has placed on compliance with the political file rules and will implement additional procedures to ensure that information regarding political advertising is timely uploaded to the OPIF going forward.
