

WMFU Online Public File

Daily reports of issue-responsive programming between late 2018 and March of 2020 are present in the station's online public file. Other reports, including reports on issues and programs appear to have been prepared and placed in the station's paper public file rather than the online public file, apparently because of a misunderstanding of the primary importance of the online public file as opposed to the paper public file. The station has located many of these reports and will be scanning and posting them in the online public file. Those reports that are not found will be reconstructed from station records and posted.

In addition, the EEO public file reports for the license term are missing from the online public file and will be reconstructed and posted.
