

WFNY Online Public Inspection File

A review of the Online Public Inspection File for Station WFNY, Gloversville, NY (Facility ID No. 129191) would appear to indicate the Issues/Programs Lists for Q4 2018, Q3 2020, and Q1 2021 were uploaded late. That is not the case. With respect the list for Q4 2018, a report was uploaded in a timely manner, but the licensee thereafter amended the report and replaced the report as initially filed on March 11, 2019. With respect to the Q3 2020 and the Q1 2021 lists, the licensee tried to upload them prior to the applicable deadlines but the Commission's OPIF system was malfunctioning at the time. Further, the October 10, 2020 nominal deadline for the Q3 2020 list fell on a Saturday and the list was uploaded prior to the first business day thereafter. Similarly, the April 10, 2021 nominal deadline for the Q1 2021 list also fell on a Saturday and the list was uploaded prior to the first business day thereafter.
