

**FCC Form 2100, Schedule 303-S  
KWKS(TV), Colby, KS**

**Minimum Operating Schedule**

As Smoky Hills previously notified the FCC on January 24, 2022, in FCC File No. 0000180746 (and in this license renewal application as originally filed), Station KWKS has been off-air since January 18, 2022 due to equipment problems beyond the licensee's control. Given that the off-air status has now extended to thirty or more days, Smoky Hills is amending the Minimum Operating Schedule certification in this application and providing this explanation. Smoky Hills is working towards resuming on-air operations and is coordinating with a vendor to finalize plans for repairs. Smoky Hills will amend this renewal application again when the station is able to complete the facility repairs and resume operations.
