

K21OY-D
Environmental Statement
2/16/2022

The applicant proposes to operate at 28 meters AGL horizontally polarized with a single paraflector antenna at an ERP of 9kW. The radiation level from K21OY-D is calculated to be well within both the permissible controlled and uncontrolled permissible levels. Placards warning of radiation hazard are posted in and around the site. Station staff are trained how to turn off the transmitter in the event that anyone climbs the tower.
