Application for Silent STA

Station K12PO began broadcasting on Channel 12 in Temecula in February 2004. As part of the repack following the FCC's broadcast incentive auction, the Commission required station KDOC-TV, Anaheim, CA to change its over-the-air channel to Channel 12. In anticipation of that change, Channel 51 timely submitted, in April 2018, a displacement application proposing operations on Channel 15. With Channel 51's displacement application still pending before the Media Bureau, Channel 51 timely filed its Tolling Request. That Tolling Request remains pending. K12PO went silent on March 15, 2019 when KDOC-TV began broadcasting on its post-auction channel and requested that K12PO cease broadcasting.

Channel 51 is collecting additional information related to its tolling request and will supplement this filing.
