

Request for Special Temporary Authority to Operate at Reduced Power

Oregon TV License Company, LLC, ("Oregon TV") the licensee of television translator station K17BA-D, Yreka, California (Facility ID No. 60735), hereby respectfully requests special temporary authority to operate the station at reduced power pending repairs to the station's transmitter. On or about February 10, 2022, the station's transmitter began suffering technical problems, and Oregon TV began operating the station at 40% of its authorized power. Repairs are underway, but replacement parts are necessary and, unfortunately, the manufacturer of the station's transmitter is out of business. Nevertheless, Oregon TV is diligently seeking the required replacement parts and is committed to restoring the station to its licensed full power operations as quickly as possible.

Accordingly, Oregon TV respectfully requests special temporary authority to continue operating the station at reduced power for a period of 180 days or until such time as the necessary repair work is completed.
