Online Public Inspection File Certification

Scripps Broadcasting Holdings, LLC (“Scripps”), licensee of the station that is the subject of the instant application (the “Station”), hereby certifies that except as described herein, the Station has timely placed in its online public inspection file all documents required to be placed in the file by 47 C.F.R. § 73.3526 and otherwise has complied with the Commission’s public inspection file requirements in all material respects.

On May 1, 2019, the license for the Station was transferred to the station’s current owner pursuant to a long form transfer of control application (BTCCDT-20181109AAU). Scripps notes that because of the long-form ownership change, the current owners are not liable for the violations of the prior licensee. However, out of an abundance of caution, Scripps discloses that the previous licensee failed to timely upload the Station’s fourth quarter 2016 Issues/Program Report and the 2015, 2016 and 2017 annual EEO Public File Reports. Scripps also notes that the second quarter 2019 Issues/Program Report was inadvertently uploaded to the public file three months late.

In addition, Scripps notes that on April 29, 2020, high winds caused the tower on which the Station’s antenna was located to collapse. Scripps entered into a contract with the licensee of KZTV in Corpus Christi under which the Station’s primary programming was broadcast on a digital subchannel of KZTV. That arrangement continued from April 29, 2020 until March 11, 2021, when the Station resumed broadcast operations from a new tower. During that period, Scripps continued to maintain information about its programming in the Station’s online public file while the Station’s own broadcast facilities were inoperable.

Scripps requires its stations to comply with all FCC rules, including the rules for the political public file. Scripps employees are trained on FCC political public file compliance and Scripps has instituted a program under which station political public files are reviewed for completeness and timeliness. Nevertheless, while the Station has substantially complied with the political public file requirements, a few documents may have been uploaded to the political public file outside of Scripps’s requirement that all documents be uploaded within one business day. Scripps will continue to work with its stations to ensure that all political public file materials are uploaded in a timely manner.
