Re: Construction Permit Expiration

Dear Former Permittee:

This is with respect to the expired construction permit associated with K45ND-D, Paradise, California, facility identification number 182079. Commission records indicate that you failed to file an application for license to cover by the construction permit expiration date.¹ Section 74.788(b) of the Commission's rules states that:

Any construction permit for which construction has not been completed and for which an application for license or extension of time has not been filed, shall be automatically forfeited upon expiration without any further affirmative cancellation by the Commission.²

As such, the construction permit was automatically forfeited. We also note that the construction permit was for an out-of-core channel (above channel 37) and as such could not be licensed on its assigned channel. You were permitted to file for displacement, but failed to do so by the construction permit expiration date.³

Accordingly, pursuant to sections 74.788(b) of the Commission's rules, the construction permit for the station referenced above was **AUTOMATICALLY FORFEITED** and the call sign has been **DELETED**.⁴ All authority to construct the stations have been **TERMINATED**. All pending applications will also be **DISMISSED**.

Sincerely,

/s/

Barbara A. Kreisman
Chief, Video Division
