To Whom it May Concern:

WTMC 1380 AM is owned and operated by the State of Delaware Department of Transportation (DelDOT). WTMC is monitored and operated by State of Delaware employees assigned to DelDOT's 24-hour Transportation Management Center (TMC). TMC personnel are responsible for monitoring and managing Delaware's multimodal transportation management system. DelDOT's integrated transportation management system (ITMS), of which WTMC is a part, provides 24-hour real time transportation and emergency management control, monitoring, and information capabilities. Updating the messages on WTMC radio is one part of a much larger job description for all workers at the TMC. There are not 5 full-time TMC employees who are working on the radio station as their job description.

TMC personnel that staff the TMC and monitor and operate the associated systems are State of Delaware full time employees.

The State of Delaware, to include the Delaware Department of Transportation, supports and is fully compliant with Federal and State EEO laws and regulations for hiring and employment.

Should further questions need response please call my cell at 302-222-5907.

Thank You,
