Multiple Ownership Study

This narrative and accompanying Figures have been prepared on behalf of station KVDU(FM), Houma, Louisiana, Facility ID No. 34528, in support of a minor change application for an increase in antenna height and to specify operations on channel 281C at a new community of license, Gonzales, Louisiana, in lieu of channel 281C at Houma, Louisiana. This multiple ownership analysis was prepared considering radio stations under present or proposed common ownership, time brokerage or joint sales.

Metro Market Study

The current KVDU community of license, Houma, Louisiana, is geographically located in Terrebonne Parish, which is not located in any Nielsen Metro Market ("Metro Market").

The proposed KVDU community of license, Gonzales, Louisiana, is geographically located in Ascension Parish, which is part of the Baton Rouge, LA Metro Market. The number of stations owned by iHeartMedia in the Baton Rouge, LA Metro Market **is increasing** by this proposed modification.

According to the FCC's local ownership "tiers," in a Nielsen Metro reported by BIA as having 30 up to and including 44 commercial and noncommercial educational full-power radio stations (which is the size of the Baton Rouge, LA Metro Market as shown in **Table 1** below), a party may have a cognizable interest in up to 7 commercial full-power radio stations, not more than 4 of which are in the same service (AM or FM). See 47 CFR Section 73.3555(a)(ii).

This application complies with the multiple ownership rules because 5 (4 FM and 1 AM)¹ of 31 full-power radio stations in the Baton Rouge, LA Metro Market will be attributable to iHeartMedia.²
