REQUEST FOR ATSC 3.0 LICENSE**

This exhibit supports an application by KAKW License Partnership L.P., licensee of Full Power digital television station KAKW-DT ("KAKW"), Killeen, TX, for modification of its license to reflect carriage in the ATSC 3.0 ("3.0") "Next generation" TV" format on ATSC 3.0 "Lighthouse" station KXLK-CD, Austin, TX, using KAKW's own call sign and PSIP.

Historically, as an ATSC 1.0 station, KXLK simulcast the programming of sister station KAKW, as well as sister station KTFO-CD. This service continued when KXLK- launched in ATSC3.0 format, carrying KAKW and KTFO with each station's own call sign and PSIP. KAKW files this application to memorialize this carriage.
