

## **WICU-FM License Renewal Application**

The station was acquired by the licensee by voluntary assignment pursuant to a long form application on December 31, 2019. This application covers only the period during which the licensee has held the station license.

One of the station's issues/programs list was uploaded to the online public inspection file ("OPIF") after the date by which such upload was required. That report now has been uploaded to the OPIF.
