

**Certification Regarding Compliance with  
Section 73.3526 of the FCC's Rules During the Preceding License Term**

Upon review of its Public Inspection File to determine whether documentation required by Section 73.3526 of the FCC's Rules has been uploaded when required,<sup>1</sup> Applicant found that:

- While Applicant retains a list of all documents required to be disclosed under Section 73.3613 in its Public Inspection File, some documents were not added to the station's Section 73.3613 list within 30 days after execution. An updated Section 73.3613 list was included in the station's most recent biennial ownership report.
- The Commercial Limits Certification for Third Quarter 2017 was timely uploaded on October 10, 2017, but a list of programs designed for children 12 years of age and younger that aired during the quarter was uploaded on October 24, 2017. The Commercial Limits Certification for Fourth Quarter 2017 was timely uploaded on January 8, 2018, but omitted a list of programs designed for children 12 years of age or younger (the station later uploaded an amended certificate).
- Some political file materials were not uploaded to the Public Inspection File within one business day of receiving the request for time.

Applicant will continue to remind station staff of Public Inspection file requirements and has provided, and will continue to provide additional, training to station staff and has worked to implement additional accountability procedures to ensure the station's compliance with Public Inspection File deadlines going forward.
