This concerns cancelled low power television station DWTVK-LP, Key West, Florida. On November 10, 2021, the station's license was cancelled. See attached. On December 9, 2021, you sought reconsideration of that action and in your request for reconsideration and separate motion to stay you stated that you would be filing additional documents/filings to support your request for reconsideration. To date, we have not received these documents/filings. This is to inform you that if we do not receive this additional information within 30 days we will consider your request for reconsideration as filed.

If you have any questions concerning this matter, please contact me.
