

AMENDMENT DESCRIPTION

1. Applicant name was amended to clarify use of DBA name in conformance with California Law.
2. Contact Representative list was corrected (Gastil was taken off Contact Representatives and added as the Attention-to for the organization's mailing address, Kayakumar's contact amended as central contact consultant).
3. "Percentage of Votes" for Andrew Hutchinson and George Gastil were changed from 33% to 25% to represent the individual voting shares of a four-person board (to correct a prior typographical error) designated as directors. Another typographical error was corrected concerning Alan Ridley's address under Parties to the Application: "6120" was changed to "6020".
4. A typographical error was fixed concerning the antenna pattern. The value for 220 degrees was mistakenly added a second time at 230 degrees (see "A") in the original application. The amended application pattern at "B" fixes that error. This correction does not change the original application's engineering, 307B showing, or tech parameters as the original engineering and calculations used pattern "B", and not "A".
