

## BROADCAST FACILITY REQUIREMENTS

The proposed application is in compliance with all of the following:

### Section 73.203 AVAILABILITY OF CHANNELS

Channel 290 to be moved to Bishop TX as a Class A. This is allowed as Radio Station KXAM, Facility ID #183318, will still be available as a local FM Broadcast station in San Diego, TX. The city of Bishop, TX has a growing population that exceeds that of Bishop, TX and thus the community of Bishop is better served with the approval of this move.

### Section 73.207 MINIMUM DISTANCE SEPERATION BETWEEN STATIONS

An attached channel study is included to show compliance.

### Section 73.315 FM TRANSMITTER LOCATION

The location of transmitter is such that it will cover the community of Bishop, TX. A coverage map in included to show compliance.

### Section 73.509 PROHIBITED OVERLAP

Channel study shows proposed modifications will not overlap any channel or co-channel signals.

### Section 73.3555

Neither the applicant, Claro Communications, LTD., nor any party to the applicant has increased any cognizable interest in any AM or FM Radio Station license in the same market.
