

## **Engineering Special Temporary Authority Request**

HC2 Station Group, Inc. ("Licensee") respectfully requests an Engineering Special Temporary Authority (STA) pursuant to the technical specifications listed in the application while it facilitates the installation of a new antenna for its Class A television station ("Station").

The Station's transmitter's ERP has been reduced to 4.25kW as the Licensee is in the process of purchasing and installing a new antenna. Once the new antenna is installed, the station will be able to resume licensed operations.

Grant of Licensee's Engineering STA promotes the public interest as it will allow WPSJ-CD to continue to provide free over-the-air programming to the community and the surrounding area.
