

K04RS-D Environmental Statement
4/22/2022

The applicant proposes to operate at 14 meters AGL horizontally polarized with a single CL-46 log periodic antenna at an ERP of 0.6 kW. The radiation level from K04R-D is calculated to be well within both the permissible controlled and uncontrolled permissible levels. Placards warning of radiation hazard are posted in and around the site. Station staff are trained how to turn off the transmitter in the event that anyone climbs the tower.
