

KXVO Hosting Arrangements

Mitts Telecasting Company, LLC (“Licensee”), licensee of KXVO(TV), Omaha, Nebraska (Facility ID 23277; RF channel 29), is filing this application to: (1) commence ATSC 3.0 operations from KXVO’s current facility and (2) identify host station facilities that will be used to air KXVO’s programming in ATSC 1.0 format.

As indicated in the Form 2100 application, Licensee proposes to simulcast KXVO’s primary stream (affiliated with TBD) in ATSC 1.0 format on KPTM(TV), Omaha, Nebraska (Facility ID 51491; RF channel 26), owned by Sinclair Broadcast Group, Inc.

Additionally, to minimize any loss of over-the-air programming available to ATSC 1.0 viewers that might otherwise result from KXVO’s transition to the ATSC 3.0 standard, Licensee also proposes to air KXVO’s multicast stream currently affiliated with Stadium on KMTV-TV, Omaha, Nebraska (Facility ID 35190; RF channel 31), pursuant to a written hosting agreement with Scripps Broadcasting Holdings LLC; and the multicast stream affiliated with Charge! on KETV(TV), Omaha, Nebraska (Facility ID 53903; RF channel 20), pursuant to a written hosting agreement with Hearst Properties, Inc.

The PSIP virtual channels for each of KXVO’s program streams described herein will remain unchanged. Accordingly, Licensee proposes to air KXVO’s streams in ATSC 1.0 on temporary host facilities as follows:

Network	RF Channel of 1.0 Host(s)	PSIP Virtual Channel (No Change)
<i>TBD</i> (Primary)	26	15.1
<i>Stadium</i>	31	15.2
<i>Charge!</i>	20	15.3
