

Engineering Special Temporary Authority Request

DTV America Corporation ("Licensee") respectfully requests an Engineering Special Temporary Authority (STA) pursuant to the technical specifications listed in the application while it facilitates the repair of its Low Power television station ("Station").

The Station's transmitter's ERP has been reduced to 4.0kW as the Licensee is in the process of replacing a damaged power amplifier. Once the repaired power amplifier is received and installed, the station will be able to resume licensed operations.

Grant of Licensee's Engineering STA promotes the public interest as it will allow WCTZ-LD to continue to provide free over-the-air programming to the community and the surrounding area.
