

Silent Request K51LK-D  
June 7, 2022

K51LK-D had been operating under an STA on channel 2 prior to constructing on its displacement permit on channel 2. The underlining construction permit to move to channel 2 has since expired. A new displacement application has been filed to move to channel 29 instead. While waiting for authorization to move to channel 29, the station has been taken silent.
