

**K29ME-D, Antonito, CO (Facility ID No. 60792)**

**STA Extension Request Exhibit**

Son Broadcasting, Inc. (Son), Licensee of K29ME-D, hereby requests an extension of Special Temporary Authority to remain silent. Special Temporary Authority was originally granted after K29ME-D went silent, likely due to an extended power outage in the area (LMS File No.: 0000180527). At that time, K29ME-D could not be reached due to snow conditions. Currently, K29ME-D is inaccessible due to wildfires in the area.

Moreover, there is no incoming over-the-air program feed from KCHF, Santa Fe, New Mexico (Facility ID No. 60793) due to wildfires causing KCHF to operate from its auxiliary site pursuant to Special Temporary Authority (LMS File No.: 0000190353). The licensed power from the auxiliary site is only 500 Watts ERP, which provides an insufficient signal to feed the Antonito translator. Therefore, Son is requesting Special Temporary Authority for K29ME-D to remain silent pending restoration of power to the main KCHF transmitter and completion of any necessary repairs once K29ME-D can be accessed.
