

Educational Media Foundation
5700 West Oaks Boulevard
Rocklin, CA 95765

K209FX
Mitchell, SD

Justification for Extraordinary Circumstances

Educational Media Foundation (EMF) respectfully requests a variance from the K209FX licensed parameters due to the collapse of the tower where K209FX was located.

The tower owner is pursuing a replacement tower with plans to construct as soon as possible. During the tower construction process EMF is requesting to operate a temporary single bay antenna on ASR 1297597. A grant of this Special Temporary Authorization is in the public interest as a good portion of the K209FX listeners who depend on its programming will be able to continue listening.

As seen in Exhibit 1-A the K209FX proposed STA 60dbu service contour at no point extends beyond the K209FX currently licensed 60dbu service contour.

- K209FX (209)
- K209FX STA (209)

K209FX Licensed and Proposed STA Service Contours
