Amendment

This amendment is solely to clarify that the primary station that this translator will be used for is WVVO. WVVO was entered as the primary station on the original application, but the application filed (LMS application ID # 25076ff38137a6130181397929de0053) did not show the correct primary station even though when I started this amendment, the correct station (WVVO) was showing already on the *Antenna Technical Data* section. I have re-entered the facility ID in hopes that this time it will properly stick.

If staff has any questions or concerns, please contact me.

/S/
