

K03FO, Seward, Alaska  
K17OX-D, Seward, Alaska  
Facility ID No. 11547

The licensee, Kenai Mountains Public Media, Inc., requests waiver of the applicable rules so as to operate K17OX-D according to this Engineering STA until site construction is completed and the transmitter ordered for operation according to the active K17OX-D construction permit is received and installed.

Further narrative and other supporting information is submitted concurrently as an amendment to the contemporaneous tolling request for this facility.

If this facility is not returned to the air by 7/13/2022 then licensing for K03FO/K17OX-D may be permanently revoked and the proposed only rural service to Bear Creek and supplemental service to Seward, Alaska will be lost.

The licensee is confident that construction will be completed and operation under the existing CP will commence before August 30, 2022 with a timely filing for license to cover by that time.
