

RF HAZARD STATEMENT

PROPOSED NEW TELEVISION STATION
ELY, NEVADA
CHANNEL 27 20 KW(H)(MAX-DA) 273 M HAAT

The applicant, in coordination with the other occupants of the transmitter site, shall conduct radio frequency (RF) power density measurements throughout the transmitter site area to the extent necessary to ensure compliance with the FCC specified guidelines for human exposure to RF energy. Therefore, the proposal complies with Section 1.1307(b) of the FCC rules regarding human exposure to RF energy.

The transmitter site is restricted from access. In the event that personnel are required to enter the restricted area or climb the tower structure, the proposed transmissions shall be reduced or terminated as necessary to prevent RF exposure above the FCC recommended limits.

The licensee, in coordination with the other users of the transmission facility, shall reduce power or cease operation as necessary to protect persons having access to the tower or antenna from RF energy in excess of the FCC guidelines.
