

### Purpose of Amendment

This amendment is being submitted to provide the annual report in the nature of a public file report for the employment unit. This report was not previously prepared because the employment unit had fewer than five full-time employees until August 30, 2021, well less than a year before this report was filed, and because the licensee did not realize that, as the licensee of LPTV stations without a public inspection file, it was required to prepare such a report.
