

**FCC Form 303-S**  
**Public Inspection File**

KFTV-DT, Hanford, CA (the "Station") timely prepared the 2021 Annual Children's Programs Commercial Limits Certification but discovered during the review for license renewal that it was not uploaded. The certificate was uploaded on July 7, 2022.

The Station believes that it has generally met the requirement in Section 73.1943(c) of the FCC rules to post political orders to the online public inspection file "immediately, absent unusual circumstances." The Station is not aware of any political spot for which it did not post information to the public inspection file. In an abundance of caution, the Station reports the following:

- In June 2020, the Station received orders for two issue ads from House Majority PAC, months in advance of the October flight dates. The station uploaded information for these ads in August, well in advance of the October start dates.
- In September 2020, the Station uploaded information for two non-candidate ads for the Democratic Congressional Campaign Committee in one instance 22 days and the other 15 days after the contracts were finalized.
- In September 2021, the Station uploaded information for a non-candidate ad for Climate Power approximately two months after the contracts were finalized.
