

Multiple Ownership Exhibit

Gray Television Licensee, LLC ("Gray") was the successful bidder for the Winnemucca, Nevada allotment in Auction 112. The new station's community of license is located within the Reno NV DMA. Gray is the licensee of KOLO-TV, Reno, Nevada (FID 63331), which also is located within the Reno NV DMA.

The Commission's multiple ownership rules allow a licensee to have an attributable interest in two stations in the same DMA if the "digital noise limited service contours of the stations" will not overlap. 47 C.F.R. 73.3555(b)(1)(i). The contours of the new Winnemucca station and KOLO-TV will not overlap, thus Gray may own both stations in compliance with the Commission's multiple ownership rules.
