

Multiple Ownership Exhibit

Gray Television Licensee, LLC (“Gray”) was the successful bidder for the Flagstaff, Arizona allotment in Auction 112. The new station’s community of license is located within the Phoenix AZ DMA. Gray is the licensee of KPHO-TV, Phoenix, Arizona (FID 41223) and KTVK(TV), Phoenix, Arizona (FID 40993), which also are located within the Phoenix AZ DMA.

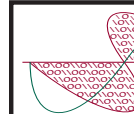

The Commission’s multiple ownership rules limit common ownership of television stations with overlapping contours in the same DMA. The new allotment in Flagstaff, is located approximately 200 miles from Phoenix. The contours of the new Flagstaff station and Gray’s existing stations in Phoenix will not overlap, as shown in the attached map, thus Gray’s common ownership of these stations complies with the Commission’s multiple ownership rules.¹
