

Renewal of License – Adherence to Minimum Operating Schedule Narrative

HC2 acquired the license for KSKJ-CD, Facility ID: 36717, Van Nuys, CA pursuant to an assignment application.

The Assignor was: NRJ TV LA License Co, LLC. The Lead File Number was: BALDTA-20180404AAT. The acquisition was consummated on 7/20/2018. Accordingly, the certifications contained in this narrative cover the period from 7/20/2018 to the present.

The station suspended operations on 7/20/2018 and filed a Suspension of Operations, FCC File Number: 0000058556 on 7/24/2018. The specific reason for the suspension of operations was, “the licensee ceased broadcasting on KSKJ-CD upon consummation of the assignment of the license, in accordance with File BALDTA-20180404AAT, because the new licensee will be reconfiguring operations prior to resuming broadcasting.” The Station then filed a Silent Special Temporary Authority (“Silent STA”) request, FCC File Number: 0000058773 on 8/7/2018. The specific reason for the period of silence was that the station was, “operating in a resource-constrained environment due to the ongoing 600 MHz Incentive Auction repacking process. Station owners seeking to build new broadcast facilities currently have access to far fewer resources than they would have otherwise, a factor that the FCC and its bureaus acknowledged could become an issue when designing the repacking process to facilitate this “once-in-lifetime opportunity to expand the benefits of mobile wireless coverage.”¹ Due to the limitations of Class A stations in Licensing Management System (LMS) in extending a pending Silent STA extension, the station was not able to file an extension of the Silent STA. The Silent STA request, FCC File Number: 0000058773, was never acted upon, remains pending, and can be dismissed as moot.

The station resumed full operations when it filed a License to Cover, FCC File Number: 000071612, on 4/12/2019. The License to Cover was granted on 4/23/2019. Since that date, the station has been operating pursuant to its authorized specifications.
