

**Certification Regarding Compliance with 47 C.F.R. § 73.3526
During the Preceding License Term**

Applicant acquired the Station on April 20, 2021 pursuant to a long-form application on FCC Form 314, and its certifications only cover the period during which it has held the Station's license. Upon review of its Public Inspection File to determine whether documentation required by 47 C.F.R. § 73.3526 was timely uploaded, Applicant determined:

- Documents required to be disclosed in the Station's Public Inspection File pursuant to Section 73.3613 of the FCC's Rules were not added to the station's document list within 30 days after execution. The Station has included an updated Section 73.3613 list in its Public Inspection File.
- Though the Applicant's 2021 Biennial Ownership Report was timely filed on December 1, 2021, the 2021 Biennial Ownership Report for Applicant's direct parent, Madison Technologies, Inc., was filed on January 3, 2022.

Applicant will continue to remind Station staff of Public Inspection File requirements and upcoming deadlines in order to enhance the station's compliance with Public Inspection File deadlines going forward.
